VCO Systems provides Light Directed fulfillment solutions for Putwall, Pick-To-Light, Put-To-Light, Pick/Put Carts and other customized process flows. And, they're designed for reuse in multiple process flows to maximize flexibility and allow for easy re-location/re-configuration in the warehouse to help customers address rapidly changing demand profiles in omni-channel environments.

VCO Systems optimizes pick efficiencies by combining pick requirements across multiple fulfillment needs (singles, multis, batch picking etc.) into one efficient pass through the aisle. These picking strategies, enhanced with light-directed technology, increase pick densities for a very efficient, downstream order deconsolidation process.

Our Software Suite is Cloud Enabled expediting implementation timelines, provides redundancy, seamless scalability, zero downtimes, and reduces Customer's IT maintenance hours.

With roots in consulting and product development, VCO Systems helps to manage supply chains effectively and to solve for the Customers' specific problems and pain points instead of trying to fit our existing solutions into their process flows.

VCO SYSTEMS IS A MANHATTAN ASSOCIATES PARTNER AND INAUGURAL MEMBER OF THE MANHATTAN AUTOMATION NETWORK (MANHATTAN PRESS RELEASE).

We had the pleasure of exhibiting our Solutions at the Manhattan Momentum User Conference this past April

OUR RECENT IMPLEMENTATION OF SHIP TO STORE PUTWALLS FOR URBAN OUTFITTERS IN THEIR GAP, PA AND RENO, NV DCS ARE TESTAMENT TO OUR ABILITY TO ADAPT TO OUR CUSTOMER'S REQUIREMENTS.

- **DYNAMIC ALLOCATION OF STORES TO PUTWALL LOCATIONS PROVIDES FOR ABILITY TO FULFILL ALL OF URBAN'S STORES WITH A FRACTION OF THE CUBBIES.**

- **MOBILITY PROVIDES THE FLEXIBILITY TO RELOCATE THE PUTWALLS, SPLIT INTO MULTIPLE PUTWALLS ETC. TO SATISFY THE NEEDS OF THE DIFFERENT URBAN BRANDS.**

- **INTEGRATED WITH API ACCESS DIRECTLY TO THEIR WMS SYSTEM FOR DIRECT FUNCTIONALITY MAPPING TO WMS PROCESS FLOWS**

 **MANUFACTURING TOP 10**

**SUPPLY CHAIN MANAGEMENT
SOLUTION PROVIDERS - 2019**
